To Whom It May Concern:

I strongly oppose allocating any funds toward AB262. The text in this bill "take any action the local health officer deems necessary" leaves it open to local health offices to interfere with individual's rights to privacy, safety and security. This is in direct violation of our constitutional rights as citizens of the united states and I urge you to oppose funding of this bill. Thank you.

I'm a Human Services Specialist w/ Northeast Family Resource Center & I support the increases in the budget for staffing & Hazard Pay. My coworkers and I made many sacrifices of varying degrees to support the County and its residents during the pandemic. Employee hazard pay is an appropriate fiscal and moral incentive for the employees who provided essential services to those that needed them during the pandemic. Thank you for your support in allowing us to serve our community.

I encourage the Board to expand the Mobile Crisis Response team to 24/7 coverage county-wide, with an efficient link to the 911 call system. Also, a well-funded public outreach and awareness campaign about the MCRT is essential to providing this important service to the community. It is essential that the County continue to secure agreements with all the police and law enforcement dispatch centers and staff to assure that the proper response, including referrals, is provided to those in crisis.

Increased funding is needed to improve collaboration with San Diego City on improving quality of care for patients with dementia who are homeless. Elderly patients with dementia cycle through the City's emergency departments with little County engagement. Expanding Adult Protective Services and the Public Guardian's role in care of elderly patients with dementia living on the street would provide support and dignity to this vulnerable population.

Please REMOVE the \$10.5 million earmarked for the Alpine County Park. Assessments have not been completed and there are too many valid concerns with the proposed design (fire/safety/water/native habitat) to move forward. I live here and supported the original plan of a small, nature-based park sensitive to our unique area. Sports complex features are redundant; our concerns are not being taken seriously. There are reasonable alternatives that can be a win-win for everyone. Please hear us!

Please "rightsize" the proposed Alpine Park. Residents asked for a community park, not a sports park. It has grown to 26 acres w/ 6 acres of lawn, artificial turf ball field, skateboard, bike parks, courts & more. All this on a dangerous road with no bike or walking paths. Water usage will be frivolous, negatively affect the adjacent preserve & ruin grassland and rural look of Alpine. We already have sports fields but they are in disrepair. Save \$, make residents happy, "rightsize" the park.

Dear Supervisors,

I am rather shocked that the 2021 budget proposes \$10.5 million for the controversial Alpine Local Park, with only \$7.5 million for purchase of MSCP lands. MSCP lands help the county meet its legal obligations to protect sensitive species, battle the growing extinction crisis, while the park proposes to build an unsustainable expanse of water-intensive turf and GHG-emitting concrete. Please reverse these priorities. They are backwards. Thank you!

I encourage you to support providing the MCRT to North County Coastal residents 24/7 and make it easier to access by calling 911. Please provide the funding to make this valuable service available to all San Diego County communities and publicize the MCRT. It is important to have the appropriate professionals respond to mental health crisis. We shouldn't be asking our police officers to handle these types of issues and put them in a position where they will have to use inappropriate responses.

North County Coastal residents need the Mobile Crisis Response Team (MCRT) 24/7, particularly after hours when it's currently not available. I encourage the Board to:

- * Expand MCRT to 24/7
- * Link it to our 911 call system.
- * Develop a well-funded, effective outreach campaign so residents can truly benefit from the MCRT.
- * Set up agreements with law enforcement and dispatch so they work in concert with the program and proper responses are made to callers in crisis.

No state shall deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws. The 14th amendment protects civil rights including segregation by medical condition.

I oppose using tax dollars to fund actions that limits liberty. No mobile medical units, goons to remove people from homes to imprison in FEMA gulags as government sees fit. Do not fund these mobile units. Do not fund evil government!

I am asking the Board to expand the Mobile Crisis Response Team to 24/7 coverage. Let's reform how we respond to individual/family crisis needs by linking to 911 for mental health emergencies. Our system would be more efficient using more social workers who can assess and provide referrals for mental health issues, rather than using law enforcement. Thank you

As a retired LCSW in the North Coastal region, I strongly urge Supervisors Desmond and Lawson-Remer to support the full expansion of the MCRT to 24/7 response and the full integration of the Exodus Recovery MCRT into the 911 dispatch as soon as possible. This action will save the lives of people with mental health crises, prevent police involvement in most cases, and protect both the families and the community. Thinking about taking away 10M from the SDPD is a mistake. There is a need for additional training. That 10M should go to train them on how to handle certain situations. To Decrease the Budget of the SDPD, when Mr. Fletcher is handing out 40M to county employees, and Mr. Newson is giving away millions of dollars to those who have had their covid shots, I believe that that 10M should stay with the SDPD. MCRT needs to be available 24/7 and connected to 911. As a former school principal and community activist I

have reported considerable instances of child abuse, negligence, and related issues of child welfare. Families in crisis, individuals over the edge need intervention from professionals. Police have other tasks and are needed for a wider variety of safety and criminal concerns. Both police and MCRT need targeted training in individual, family, and community troubles.

I oppose the scope of the 26-acre, all-in-one regional sports complex Alpine County Park. There are too many concerns and unanswered questions from the County, State, and Federal agencies to justify spending so many tax dollars on a park the community does not want. The community does support developing a nature-based passive park at the location adjacent to Wright's Field Ecological Preserve. The current plan is too complex, intensive, and water-dependent for the location.

I would like to propose a discussion around the sale of the Normal Heights community garden, which has served our community for 30 years. We're asking the City for help in purchasing this lot to be used as public green space. Our petition has 800 signatures and we have been featured on KPBS, FOX5, NBC7 and CBS. Please consider this topic for your budget conversations.

Maricopa county, AZ. The first domino in the collapse of a corrupt election system controlled by foreign special interests that crush the voter's voice in free, fair and transparent elections. Why isn't election integrity on the monthly agenda? Why isn't the county funding a full forensic audit?

Dear Supervisors, Concerning the Alpine Sport Park: Let's research smaller, less impactful alternatives. The project scope is inappropriate to the site and community. Southgrade can't support the resulting traffic. Water resources are inadequate in a drought. Unnecessary energy use will impact the climate. Fire prevention and evacuation will be adversely affected. The ecological damage can't be mitigated. Please consider less damaging alternatives. Respectfully, Brenn Boyer.

Hello to all and thank you.

Lets please remember where we were last year at this time within our city lakes and the city council along with

county board of supervisors feeling closing the lakes within San Diego was an excellent option to save budget expense.

It would have been one of the worst turns of events in our city's history if they closed. My hope is this opened the eyes of the council and supervisors as too how many rely on the lakes for outside recreation and exercise.

Hello SD county board of supervisors. I would like for your board to fund and provide access to black and indigenous households and individuals to doula services. This will provide a layer of emotional and financial support to families who currently and historically face health disparities. In order to be proactive, we need to have support at the local level from doulas in our communities.

Our lakes really need your attention at this time. Since the pandemic there has been a huge uptick in outdoor activities we have beautiful natural resources that all residents want to take advantage of we need to increase the annual lake budget to allow more access and improvements. Look at lake Morena a shadow of its former self or lake Loveland we are really at a turning point we need access and more access please keep the lakes open and with more days operating. Thank you for your continued dedication to update your constituents, such as myself, on where our tax dollars are being spent. It was a major decision of mine when I went to the ballot box. I knew you would come through for the working class and veterans like me. Please continue to do what you are doing in a bi-partisan way, despite the odds, in ensuring that the citizens of this county and state are well informed. Thank you.

The BOS is only as strong as the County workers. The frontline workers are the ones carrying the County on our backs. We worked tirelessly to get the AID to them that found themselves without a job or health insurance over night because of the pandemic. We faced uphill battles to insure the County system functioned doing the pandemic. We had to adjust our home budget go without food or paying bills to get WiFi/Internet & equipment to work for home when we was told to go home and work.

Discrimination based on health status or vaccination status is UNLAWFUL AND IMMORAL. There has been NO accountability for those who have recovered naturally from COVID-19 which shows the haphazardness of all these knee-jerk rulings and grasps for control of free citizens. But, ANY discrimination or segregation based on health status is WRONG. I implore the BOS to restore individual freedoms and drop any idea of tracking or verifying vaccination status in the workplace or otherwise.

I am in support of the funding used for eviction assistance related to COVID-19. However, I am disappointed in the many layers to find this vital information. I have attempted to reach out to the county offices for assistance with no response back. I did receive assistance with the City of San Diego on their process with agencies they've appointed. I would like clearer steps from the county so I can streamline the process for those seeking assistance, before Aug. 2021.

I strongly Oppose forcing Covid vaccine. This is experimental and not FDA approved. I have been doing medical research for over 20 years and know that all of the animals in the testing have died and there have been no long term studies. Nuremberg Code is violated if experimental vaccine forced on those who are not consenting. This is totally unconstitutional and should be up to the individual whether they want to get the vaccine or not.

Oppose forcing Covid vaccine. <1% chance of getting covid and if people do, odds of recovery is > 99.58%. Those that had Covid already have antibodies and studies don't show what effects giving vaccine to those that have recovered from Covid will do. According to the Stanford study and Sen Dr Rand Paul, those that have had Covid don't need vaccine. There are no animal tests or long term studies. Nuremberg Code is violated if experimental vaccine forced on those who are not consenting.

I do not support the public being forced to receive a covid injection. First of all, follow the science. Less than 1% chance of getting covid and if I do, the odds of recovery without medication or doctors is over 99.58%. There is no need for a vaccine at all. We have an inalienable right to decide what goes into our bodies. There have been no animal tests. The spike proteins do not stay in the arm but travel throughout the body. We do not know what effects this will have.

I support evidence-based policymaking. As an almost 3 decades software engineering director at Teradata/NCR, we saw the positive results that our clients achieved when analyzing data instead of going with the gut. We get a better understanding of what elements provide the optimal outcomes for affecting the correct data. As a Alpine resident for 22 yrs I oppose the size and scope of the Alpine Local/Community park. I support a "right sized" nature based, passive park that most in the community want, not the monstrosity that so many oppose. It is disappointing that there has been no published plan for how to pay for water and maintenance of the park. A small nature-based park in Alpine is welcome. People need a place where they can enjoy the peace and tranquility of nature. A sports complex of loud baseball games & clanging skateboards should be somewhere else, closer to existing schools. One of the specific goals of the Alpine Community Plan (Sec 3.2) is to calm traffic on South Grade Rd. I don't see how a "Destination Park" will do that. Peace & tranquility of the people who live off South Grade & nearby homes takes priority over parks.

Re: Alpine Sports Park. The 25 acre passive park first proposed is appropriate to the site and the community. Great proposal! An elaborate, highly impactful, permanent complex on a small rural road (the only fire evac route for hundreds of homes) with no funding for improvement is not. Dear Board, I say YES to a small Alpine Nature Based Park and NO to proposed Alpine Park with a Sports Complex. I love Alpine and the beauty of historic Wrights Field. Please support a small park that would be less destructive to wildlife, natural habitat, less dangerous in a high fire zone area, and keep traffic congestion down. I am strongly opposed to the size and scope of the Alpine County Park. An appropriate compromise is a family centered local park with a nature priority which local newspaper polls show that Alpine wants. P&R polling was poorly conceived, not local and designed to support a perceived need for a large acreage - high capacity park with up to 350 standard parking spaces and 11 bus/trailer spaces. We should focus on providing resources that will aide in rehabilitation and prevention, rather than just incarceration. Covid has re-structured our criminal system and with our jail population down 2000 people, we should reevaluate how and what role incarceration plays. It's imperative that we do not go back to business as usual. We need data driven studies on how alternatives to incarceration affect/aide our communities, and should have these answers before increasing the Sheriff's budget.

I am a social worker serving clients throughout San Diego County. I support fully funding the Immigrant Legal Defense Fund, Office of Labor Standards Enforcement, and Mobile Crisis Response Team (MCRT). I oppose the proposed increase to the Sheriff Department's budget and request an audit and increased transparency of their spending. Funding should shift from policing and incarceration to community care and empowerment.

- 1) We need to take a careful look: who should not be incarcerated in our community? We cannot go back to business as usual. It's time to take a fresh look and see who needs alternatives to incarceration?
- 2) We also need to look into all the alternatives to incarceration. What are the services that we need to help folks out so they don't go to jail?
- 3) we are calling for a data-driven study on these two issues. We cannot move forward with more funding for the sheriff to lock up more people

I strongly oppose the use of our tax dollars to fund AB262 and AB389 to weaponize health directors statewide and authorize them to force people from their homes if deemed a "Health Threat" if not part of the vax experimental treatment. People have the right to decide when and if they choose any experimental or approved health treatments without government coercion or force. Our tax dollars must never be used for this purpose our government should be for the people not against them.

I oppose the development of Wright's Field into the larger sports complex. Residents and visitors have enjoyed and explored the area for it's natural beauty... birdwatching, hiking, photography and stargazing. At most, a passive park is in keeping with that. We have multiple ball fields that can be upgraded/expanded if it is even warranted. Having grown up here, over decades I've seen a lot of positive growth, yet Alpine has kept its charm/small town feel. I hope we can maintain that.

Require climate equity to be the focus as a governing framework to address the communities that are disproportionate impacted by climate change. The county's policies should advance resiliency and accountability with establishing an environmental justice advisory council that is predominately represented by the communities most impacted by climate change. The continuance of funds being designated and allocated for an emergency based on a virus that has not been isolated and a PCR test which was never meant for diagnostic use is an egregious use of tax dollars. With

attempts 'to curtail the emergency' ever moving just beyond reach, civil rights have been under assault. In California we have such a threat under the broad powers granted under AB-389 (21-22), AB-262 (19-20), and CMS-9115-F. Rescind such funds, do not further harm our civil rights.

I'm a Human Services Specialist with Eligibility Operations and I support the increases in the budget for staffing for safety net programs. My coworkers and I, although grateful to maintain employment while so many did not, made many sacrifices of varying degrees to support the County and its residents during the pandemic. Employee hazard pay is an appropriate fiscal and moral correction for these sacrifices. Thank you for your support in allowing us to serve our community.

My family stands in support of a County Park in Alpine. We believe the community would benefit from this park and the ability to offer community events in an outdoor setting for all of Alpine, which is not currently available. Many believe the Alpine Community Center park is a public park, which it is not. Therefore, having this County Park in Alpine will be an asset to the community. Respectfully considering those opposed, we do not need anymore riding and hiking trails. Please fund the park!

The City of Carlsbad supports approval of the North County Social Worker Pilot Program. With over 1,125 people experiencing homelessness in North County (15% of the total county homeless population), additional resources are needed to help ensure individuals receive the level of care and case management support they need. The City of Carlsbad appreciates the Board of Supervisors' commitment to addressing homelessness throughout San Diego County.

I'm part of ACLU-SDIC & ISDF. Overspending on policing & incarceration limits the resources available for the programs & services our communities need. The County is spending more money on the Sheriff's Department than any other department, & there is limited information on how \$1B is being used. Related to the Alpine Park topic, the Alpine Plan states an interest to "Maximize hiking and fishing at Loveland and EL Capitan Reservoirs.

As it is, the hours of access are shortened at the discretion of the Descanso Ranger and the Sweetwater Authority has plans to drain the lake for various purposes, including possible sand mining, which our partners in government apparently also condone.

Please fund social services for people in crisis. The sheriffs are not the right resource to use in these situations. Every department should be audited on a rotating schedule, needs change and resources need to be reallocated.

Also support legal services for immigrants. They need someone to guide them in their quest for entry into this country.

Our region needs to move towards more sustainable use of natural resources. We need to mitigate many of the impacts and find ways to repair areas.

I support funding to increase access to doula care. Doulas provide vital services before, during, and after pregnancy such as increased breast feeding initiation and decreased cesarean rates. Pregnant people face many barriers to accessing this service since health insurance normally does not cover this cost and out of pocket fees are expensive. Expanding this program will give vulnerable populations access to a service that they desperately need.

I support the funding of the Alpine Community Park. The kids of Alpine deserve a local facility where they can gather and enjoy outdoor activities without the need for a parent to drive them. 1. Surveys show the majority do NOT want sports fields, but a passive park.
2. Why the rush to fund this project? Do you have any idea, for example, what it will cost to grade an old riverbed of boulders and clay, bring in water, topsoil, irrigate and deal with human waste on land that does NOT perc?
3. The native grassland is UNMITIGABLE resource. Is anybody paying attention to CEQA? Remember the Stagecoach Ranch lawsuit?

We could erect a skate park on Alpine Blvd. where the kids have already built a dirt skate park. We could also update our existing baseball, softball, and soccer fields. Recommend further investigation into the cost of outsourcing mental healthcare for people with severe mental illness. SD County has private agencies responsible for providing mental healthcare in our jails and intensive wraparound support for those with severe mental illness. We need you to:

1. Fully fund these community programs and services: Mobile Crisis Response Team (MCRT), Office of Labor Standards Enforcement, Immigrant Legal Defense Fund.
2. Audit the Sheriff's Department budget: We need more government transparency, more public accountability, and less incarceration and policing. Our County spends over \$1 Billion on the Sheriff, more than any other

department. The Sheriff is still proposing budget increases and additional staffing. It's time for change.

I oppose the scope of the 26-acre, all-in-one regional sports complex Alpine County Park. There are too many concerns and issues with the park plan to justify spending so many tax dollars on a park the community does not want. The community does support developing a nature-based passive park, but not a mega-complex. The park is slated to be developed on one of the two remaining large-scale grassland habitats left in San Diego. The current park is unsustainable ecologically and economically.

I support the land use and environment group recommended budget. I support the increased investment in parks and recreation staff so important to help maintain current facilities. These investments also allow for the important continued development on new projects such as expanded trail and recreation opportunities balanced with resource conservation such as the Sweetwater Loop Trail, the Alpine county Park, Sycamore Canyon, Boulder Oaks, Sage Hill and San Luis Rey River Park. Thank you.

I'm part of the San Diego Organizing Project & ISDF. Overspending on policing & incarceration limits the resources available for the programs & services our communities need. The County is spending more money on the Sheriff's Department than any other department, & there is limited information on how \$1B is being used. I urge you to call for an audit of the Sheriff Department's budget & to fund community needs like the Office of Labor Standards, MCRT & Immigrant Legal Defense Program.

Please fully fund the County's growing sustainability efforts. The County not only has to respond to existing climate change challenges, it must develop systems to foretell future ones and ensure that we can respond to them in an effective manner. Those efforts include:

- Regional Sustainability Plan
- Departmental Sustainability Plans
- Sustainability and Natural Resource Reorganization
- Comprehensive Native Plant Landscaping Policy

Example: All departments should consider methods to transition to renewable energy or reduce power consumption.

Example: Departments dependent upon generators for emergency power should transition to battery backup power and retire fossil fuel generators. Numerous opportunities to efficiently modernize should be funded. Please do so.

I am a 7 year Child Welfare Protective Services employee. I have seen the impact of traumatized and burn out staff feeling un supported as we have high demands (case loads) to make critical decisions, and uncompetitive pay, which leads to high attrition rate. Our social workers put their lives, family time, and mental well being on the line to keep children safe. We need hazard pay, pay increase, and lower case loads to keep up with the demand of the work and ensure child safety.

100s are against the proposed Alpine County Park. We thought it was going to be a small community park but it morphed into a 26 acre sports complex w/acres of water thirsty fields.

90 - 100 days a year temps are over 90 degrees. When temperatures soar, people stay indoors. The sports facilities will be underutilized.

In addition the road is dangerous and has no walking/biking path, there will be a neg. impact on nearby preserve.

Please rightsize the Alpine County Park!

Re proposed Alpine County Park. In response to 1) the 6/25/21 Alpine Sun article "Park concerns heard at the budget hearing" and 2) email to the Supervisors from B. Albright, Dir of County Dept of Parks and Recreation, we respectfully submit the attached for consideration. We ask that any budget approval is contingent upon a reduced and scaled-back park design and that after Environmental Impact Report is released the revised park plan receive due process of public scrutiny and agency review.

Do not approve the budget for the Alpine County Park. It scope of the park is not want most Alpine residents want and as a taxpayer, I do not want to be responsible for the upkeep of a 28 million dollar park off a dangerous road. I was there when a lady was hit and killed on S. Grade and I heard the County is not expanding the road to make it safe with walking/biking paths.

The MSCP program needs triple the funds planned. So do other existing County parks. In particular many citizens of Alpine want funds spent to maintain existing park assets in Alpine rather than making a huge investment in recreational facilities next to Wright's Field. I hope that you find a balance and serve all your Alpine constituents, not just those who want sports facilities. In particular athletic fields need water and money to sustain them, money and water that is needed elsewhere.

Decrease the \$10.5 million proposed for the Alpine Local Park. Preserve Alpine's Heritage is pushing for a less-developed, sustainable park, with investment diverted to rehabilitating existing facilities in town instead of building more on the outskirts. How much water will be wasted on six acres of turf?!

My suggestion is to increase budget for San Diego beaches.
We need better landscaping and nice boardwalks. We charge millions of tourists tax but not much is getting improved
Need more showers so sand is not carried everywhere
Need nice bathrooms maybe charge for, by customers or outside advertising.

I support the addition of the park in Alpine. I live across the street in the old ranch and children need a safe place to play. I am in staunch support of a new community park in Alpine. I grew up in Alpine and I have made the decision to raise my young family here. I love the town and the community. The addition of new park would only strengthen the community and improve quality of life for the residents. There is still plenty of untouched outdoor spaces to enjoy with the addition of the new park.

I support a community park in Alpine. There are so many children who can benefit from having a safe outdoor area to play and learn in. A lot of kids may not have a backyard or safe area to enjoy. Building a community park would encourage more outdoor play and give an equal opportunity for every child to enjoy our beautiful town. The parks we currently have are outdated and few and far between. I think Alpine is well over due for a updated space for families to enjoy!

If this outreach received 3500 responses, or one tenth of 1% of the regional population, this wouldn't indicate consensus. Since many responses are from people and organizations that want to receive funds, it would be disingenuous call this, "public input" in real sense of the words. Though traditional, this approach doesn't inform decisions, it disguises a process. There's a better use of this technology. Please, call, email or text me for more information. SD Visual Arts Network supports an \$840,000 allocation from the general fund to support the exploration of a return of the San Diego County Office of Arts and Culture led by Organizational Development Consultant (\$90,000) with a pilot grants program (\$500,000) designed to reflect supervisors goals plus funding to make a study county wide of economic impact through AEP6: Americans for the Arts - Arts and Economic Prosperity

I am against the proposed \$1 billion budget that will go to the Sheriff's Department. Half or most of that budget should address community issues. Fund the expansion of the Mobile Crisis Response Team because they – not the police - should respond to mental health calls. Fund the Immigrant Legal Defense Program so immigrant families can stay together and contribute to the community. Fund the Office of Labor Standards Enforcement to ensure workers are protected. I live in District 3.

I would like the country to prioritize increasing affordable housing for middle and lower income families by encouraging high density housing and discouraging subdivisions full of McMansions that cost \$800k plus each and make SD unaffordable. Prioritize walkable neighborhoods and preserve our natural spaces for the enjoyment of all while protecting the environment.

I oppose funding of the Alpine County Park as currently presented- The scope is way too large and the initial and maintenance costs (not currently even defined by the County), and also way too high. We as citizens are penalized by increases water rates now if we choose to add a 10'x10' section of grass, but the County is choosing to add acres of grass? .It seems the County just has too much money and needs a place to spend it- opposed to sports park, support small nature park -

As a 24-year resident of Mira Mesa I am grateful to live in a community that epitomizes the diversity of San Diego. Several years ago, our young people lost one of our go to "hangouts", the Epicenter because of deferred maintenance and thus deterioration. Attempts to rejuvenate this resource have been frustrated, not by lack of will, but by the lack of funds. Funds to enable the Epicenter to be restored to the asset it once was, is critical to our community's ability to support its youth.

I support the funding for the ALPINE COMMUNITY PARK. It's a much needed park that's taken over 20 years to develop. It's not a sports complex and all environmental aspects are being considered. Some naysayers are spreading false information. There is a video showing what they are planning it's not written in stone and can be modified. I feel the naysayers are disregarding that and not telling people about it. I don't have the money or connection I have heart integrity and a higher power with me.

It is important there is special outreach to link San Diegans to a health home and ensure they get health insurance and health care. The general budget does not address one of the most important direct cost-to-benefit actions: requiring that all county electricity is procured from emission-free sources: solar, wind, hydro, geothermal and storage. The slight increase in cost would be far outweighed by the benefit of proving that one of the State's great counties knows how to walk the talk in procuring 100% of its electricity from carbon-neutral sources.

Please allocate funding toward mental health and homelessness by reducing funding for the Sheriff's Department. Sheriffs do not have the training needed for de escalation during a mental health crisis. These events need to be handled in a professional manner not with armed police.

I am a resident of District 1 living in Chula Vista. Funding is needed for cooling centers and microgrid infrastructure. Funding for building electrification for new construction would decrease pollution.

Thank you.

I agree with other commenters that at least some of the funding for the Sherriff's Department should be allocated for services that address community issues. Also, while a larger budget for Capital Improvement is something to celebrate, doubling the amount of funds is excessive, and seems to come at the expense of other priorities. Funding for Housing has gone down by \$20 million, and in the midst of a housing crisis, more, not less, needs to be dedicated to the solution. Thank you.

Hello from district 3. Why does the executive summary talk so much about racial equality and justice reform, while obfuscating (it is split into multiple categories for no good reason) the fact that the Sheriff's budget increased from \$978 million to \$1057 million? All budget priorities aside, its is clearly intended to mislead as to the actual changes in the budget. Fully fund and empower the new office of Office of Evaluation, Performance and Analytics to make evidence-based recommendations for improvements in county depts. Increases in any dept budgets should not be considered without a close analysis of their current operations and effectiveness. It's my understanding that the power to do this lies solely in the hands of the County CAO. I'd like the board of supervisors to reduce the funds allocated to the sheriff and standard policing and to put those funds towards programs that actually keep San Diegans safe. Armed police officers do not need to be conducting traffic stops, responding to mental health crises, or complaints about unhoused San Diegans. We should follow the leadership of other communities across the US and redirect the duties and funding of our law enforcement toward well trained, unarmed specialists.

Julie Fisher

Public Safety: Less money should go to standard policing, but various duties should be reduced to take pressure off of the sheriff department.

More funds should be allocated for specialty social service workers (who do not carry guns). Many services could be provided by those who have training in various specialties, like homelessness or mental illness. Even subpoenas could be handed out by trained (not armed) professionals. This reallocation of funds would likely be less expense.

The budget currently is set to allocate nearly a third of county revenue towards public safety, and most of this money is going towards the sheriff (the sheriff alone coming out to over 300 per capita, an incredibly high amount anywhere in the world). Even a fraction of this money properly placed in public services could do wonders.

I'm also concerned about the significantly higher spending on the DA over public defenders. Why are these numbers not more balanced?

I strongly oppose funds be directed for anything related to AB389 and CMS911-5-F. We do not need our funds to be spent on Covid-19 contract tracing, testing or tax funded contracted mobile health units to enforce vaccinations. Vaccines reduce symptoms they do not prevent the transmission of Covid-19 & have dangerous side effects. We need natural immunity. This vaccine isn't FDA approved and is experimental. I support funding for the North County enhanced homeless outreach pilot, which will hire a team of social workers to provide greater level of homeless outreach, assessments, and connections to wrap-around services. As a member of the Society of St. Vincent De Paul we work with the homeless and those in need. I have seen the increased need for these services and ask the County Supervisors to add this pilot program to their budget.

As a board member of Interfaith Community Services I understand the need for trauma-informed outreach. This need has been recently emphasized by responses from 276 surveys of Interfaith key stakeholders when asked about the causes of homelessness.

I've worked with other counties to help them in implementing Stepping Up programs which PERT, MCRT and smart justice are aspects . They are seeing results and it is high time our county also benefits from those initiatives. Make sure that Regulatory Compliance is included in the proper implementation of these programs to maintain our citizen's rights and reduce any liabilities.

I join the growing chorus of citizens who are encouraging the Board to expand the Mobile Crisis Response team to 24/7 coverage county-wide, with an efficient link to the 911 call system. Also, a well-funded public outreach and awareness campaign about the MCRT is essential to providing this important service to the community.

I live in district 5 in Carlsbad. I serve the unhoused in Encinitas through St. Andrew's Episcopal Church in Encinitas. Steven Gonzales, the social worker and HOPE team member in Encinitas, has impacted the homeless community and the paradigm of homelessness more than any organization in recent years. He placed several people into housing while developing the relationships necessary to help the unhoused navigate the available agencies. 10 more social workers will have a profound positive impact

I am a resident of District 3. I write in support of two initiatives proposed to be included in the 21-22 County Budget. These concern services to the homeless and/or impaired citizens. Both reflect the need for social workers or mental health professionals- rather than law enforcement- being called to deal with this population. The budget items are funds for MCRTs and for the Pilot program for the homeless. Both are most effective in dealing with the needs of these citizens.

Although County employees were not laid off during the pandemic, the public needs to be aware of how many County staff are working below the poverty level and receive the same services that we provide to our customers. Job security is no excuse for low wages and having to fight to feed and house our families when we have the 2nd HIGHEST paid Board of Supervisors in the state, but are in the top 5 lowest paid in state for County employees. Approve better equitable wages now!

With four boys that were born and raised here in Alpine, I can tell you there is not 1 kid born here that wouldn't benefit from a park. Years ago we helped the Alpine youth center get its approvals to open and the amount of kids its helped over the years is overwhelming. Sadly those opposing the park live in the gated communities next to the proposed park. Its funny to see that they care so much about the native area now but didn't mind disturbing it for their private parks and lakes.

I do not understand why mankind has to continue to chisel away our natural resources thereby choking and eventually exterminating our flora and fauna. I value what is left of our County and State native grasslands and the the sensitive habitats they host. I oppose the Alpine Local Park. The design effectively destroys these precious natural resources. This intensely populated active park is not conducive protecting what little that is left. We have a jewel for all of the County. Leave it alone

The California Native Grassland Association (CNGA) is opposed to the current scope of the proposed Alpine Park. As a statewide advocacy group, CNGA is dedicated to preserving and restoring California's grassland habitat. We believe that protecting this grassland and the essential ecological functions it provides will help Governor Newsom to address the impacts of climate change and achieve his "30 by 30" goal, which aims to protect 30% of the state's land area by 2030.

This property can be used if the County prioritizes cleaning up the site. Let's talk more about how we can clean this property up so we can transform it to its highest and best use. This request is aligned with the County Climate Action Plan and General Plan.

Dear supervisors, please cancel parking fees at county parks! In these times of Corona virus and the search for fresh air in nature, I am sad to see our county parks unused because of the parking fees barrier at the park entrance. County Parks should not be a privilege only for those who can afford the parking fees! I drive by Felicita County Park daily, and it is a shame to see such a nice park largely unused. Please cancel the County Parking fees, so the parks can be used by all, rich and poor

I support the prioritization reflected in Terra Lawson-Remer's budget proposal. The County should fully fund a pivot towards sustainability and pro-actively address impacts of the climate crisis on our communities and habitats, including sustainability and environmental justice. More open space in San Diego is necessary, and especially in park-poor communities. Natural open space to protect sensitive habitat is important, that is protected from abuse by mountain bikes, off-road vehicles.

I oppose allowing public uses, active parks, fire stations etc to be built on-over sensitive habitats. Unfortunately there are at least 3 proposed. A fire station for a deed restricted MSCP Carmel Valley, an active park for sensitive habitat near, and an active park for a sensitive habitat in Alpine. We have a stressed populace and we need our open spaces, the wild and parks to destress our citizens. When we implement these, we need to be sure all citizens benefit - that there is equity in what is provided and that it is sustainable. These will have benefits not just post-pandemic but in reduced anger and societal costs that anger brings. Let's let our folks who are expert at recreation of the soul provide the facilities they know we need.

Through those years, Alpine did NOT have a large park with sufficient ball fields (needed as our daughter played soccer & softball) & we traveled to have those facilities. A dog park, care for passive section of Wright's Field is important. Bring Alpine a park to call their own. Well-deserved.

Densification, more politely known as urban in-fill, is unsustainable. As the City is persuaded by developers to build into the sky, down on the 2D flat, roadways are overburdened, infrastructure is strained, and city services stretched thin. Will new dwellings end the housing demand, or does it just continue? At what point can we say we have shoe horned in as many people as the land and region can support.

I oppose the Alpine Community Park as proposed on the County owned land adjacent to Wright's Field ecological preserve. The state is entering one of the worst droughts in history. With climate change it is likely that droughts will become more severe and more frequent. As such, the park as proposed is unconscionable. It's fields and facilities will waste vast amounts of water. Whereas, a passive nature park at this location will be congruent with the environment and be socially responsible.

The population of San Diego Co. is rising, 3.54 million today, projected to be 4.38 million by 2050, a gain of 840,000 people. Much more land for HIGH QUALITY wildlife zones is needed, including significantly wide wildlife Corridors. Using mitigation funds to set aside mostly steep hillsides is NOT enough. Wildlife needs many types of habitats, including gently sloping lands (grasslands and such). Lack of high quality wild lands and wildlife corridors will mean more species extinctions.

I oppose the funding for the Alpine park due to its size and location. Alpine could use a nice community park but the size and scale of this project is way over the top. We are a small rural community and we would like to stay that way. Wrights Field with its trails and open space fits with the character of our town. A giant sports complex does not. And with the current drought conditions one has to wonder where all the water is going to come from to support all these new lawns and trees?

There are too many concerns about Alpine County Park. It should be removed from budget consideration until all environmental and safety issues have been thoroughly addressed. A small passive park is more suited to this area. A sports complex with a skateboard park is more appropriate closer to town. Perhaps at the unused Alpine Elementary playground adjacent to the baseball fields.

I support the Alpine Park along with our planning group, school board members and every kid that lives in Alpine. Those you see opposing this, live next door to the proposed park in gated communities. Its not fair for them to say their parks and lake areas, once native but disturbed for their use is ok and that its not ok for us to have a park for kids who aren't allowed in their gated areas. Having been a part of the Alpine youth center I know what a difference these things make to our kids.

I oppose the current scope of the Alpine County Park and feel funding should be removed from the budget until the plan has been thoroughly reviewed and updated. The plan is overscaled for the site and available resources (water, transportation). This is one of the last remaining grasslands in the County and that should be prioritized before this rare habitat is gone. We can develop these amenities on sites already impacted vs impacting wildlands and native habitat. Protect our native species!

Unsure what percentage of the actual residents will be utilizing the Park amenities. In all likelihood, a great percentage of park users will be non Alpine residents. My family is all for a non intrusive Park that was proposed back 2 years ago. The new plans have not seriously considered the opinion of the people in the surrounding area such as my family that will be impacted. I oppose funding the Alpine County Park as currently designed. Putting a regional park with over 300 parking spaces would cause adverse traffic conditions for the nearly 2000 residents that use South Grade Road as their only access to and from their home, especially during fire evacuations. Skate park and bike park scored less than 10% on the survey. Do they need to be such a large footprint? Downsize this 26 acre regional complex to a 13 acre passive park for Alpine.

I oppose the Alpine Community Park as proposed. Public safety has not been equitably addressed at this point. Traffic studies were conducted during a pandemic which is a skewed representation of the actual road use. Wildfire safety is a concern and using the park as a staging area is not needed due to a large parking lot approximately a mile away. There is also the concern of water usage during a significant drought period in California. This is not a drought friendly proposal.

As a resident/homeowner in Alpine for 20+ years I strongly support the proposed park for Alpine with one caveat. The proposed park is ideally located and well designed and is sorely needed for our community. All of the amenities are great. My sole objection is to the ball field. As someone who coached girls softball for many years, I believe the better location for a field (actually multiple fields) would be at our schools - JMMS and/or Boulder Oaks - while alleviating traffic at the park site.

The proposed Alpine Park plan is overkill. All we asked for were walking/biking trails, picnic areas, playground, dog park and bathrooms. DPR ignored resident surveys; responded only to skate park vendors and handpicked big park "stakeholders". Replace big fields with joint-use agreements to save money and water. For equity, put skate/bike park closer to town center for local kids there. For safety, add system of trails between smaller neighborhood parks so all Alpine areas are interconnected.

Please keep funding for the next phase of the Los Peñasquitos Canyon Preserve trail project in the final budget being adopted by the Board. This is a project that is about twenty-five years behind schedule. The county has numerous parks elsewhere and has dropped the ball on this area. For some reason, some members of the community believe that we do not need a county park. The children of this community deserve a place to have fun and learn about nature . If our parents did not want parks for recreation and good old fashioned fun, then there would be no parks in San Diego.

Restoration of the Mira Mesa Epicenter is key to providing adequate, suitable constructive activities for the youth of this community. Mira Mesa epitomizes the diaspora of San Diego. Its diversity challenges us to give to our fellow citizens the best community it can make it. When we lost a functioning epicenter we lost the opportunity to provide a resource what our youthful citizens need for them to thrive. Enable us get the Epicenter back.

I strongly oppose the proposed park complex for many reasons. The proposed Regional Sports Complex will cause huge traffic and safety issues for our town. There have been many environmental concerns as well that the county has not fully addressed or disclosed with this proposal. Schools and or the Alpine Community Center are viable and more suitable options for sports parks. I urge SD county Parks and Rec. to be stewards of the environment, not land developers.

Well developed parks surrounded by trees and grass could provide all residents to find a place to meet with others, use it as a recreation and even use it as a learning site. While there are some trails, mostly in the wild zones, these can't be used for recreation. From what I saw this far, Alpine is one of the underserved community for parks an recreation areas. I strongly support creating a recreational ground for the residents of Alpine.

I oppose the funding for the Alpine County Park for 3 main reasons. 1. The native grassland was determined to be an UNMITIGABLE resource by state and federal agencies. (Remember Stagecoach Ranch? CEQA?) 2. Why approve funding for this when you don't know what it will cost? The land sits on an ancient riverbed of boulders and clay. The prohibitive cost of grading, bringing in topsoil and infrastructure hasn't been determined. 3. Repeated surveys show residents do NOT want sports fields.

I am writing today in opposition to the current Alpine Park plan. This plan does not represent what Alpine residents wanted in a community park. The residents of Alpine wanted a community park, with walking and hiking trails, a dog park, picnic tables, and nature inspired playground. There was little support for a sport complex and skate park. It is important that the park is compatible with the the Back Country Land Trust preserve adjacent to the park. I urge you to vote no on this project.

I am adamantly opposed to this park. The location is terrible and the park is badly designed. Increased traffic on South Grade Rd, which is already a dangerous street. High fire danger area, with limited emergency evacuation routes. Will adversely impact the native habitat of Wright's, whose preservation should be the most important responsibility of the County/State. This park should NOT be allowed to be built.

I oppose the Alpine park as it has been presented. We have lived in Alpine for 40 years and we value our "wild" spaces. It has been proven that getting out in nature is very beneficial to all of our health and well being. Having a park as is planned, with all of the sports activities will bring in a large amount of people who will devalue and degrade our precious Wright's Field. I have enjoyed San Diego and lived occasionally in the county over the last 6 decades. I am not in the USA currently due to covid but am very familiar with the site for nearly 30 years. I oppose the park in this location there are sites nearer to town and closer to the freeway that would benefit more fully the people who want this kind of highly developed park and allow for extended nighttime, lighted use, beyond the times of use in residential areas. We need a smaller, natural rural park that compliments the surrounding area. The 12-14 acre park that was presented during the original discussion. The County has failed to address issues of Fire Safety, accessibility, physical and fiscal up keep and environmental impact on the current design- a design with over 300 parking spaces, solar panels, BBQ pits and overnight lighting. The propose size and scope of the Alpine Sports complex is too large and doesn't fit the rural feel of Alpine. Its too costly to taxpayers to maintain. A smaller park would be better suited.

We strongly oppose the proposed Alpine park. With the safety issues... native habitat issues .. size and scope issues... this park is not for Alpiners. Is it not the open spaces and small town community that draws families to raise their children in Alpine? This proposed park can be found anywhere in San Diego ... let us maintain our uniqueness and say no to the park and yes to nature.

As grandparents we believe the park will a part of the foundation of equipping the young families with community involvement. We will enjoy it recreationally, as we are responsible stewards of this entrusted treasure, individually and corporately. Trusting the traffic will be handled accordingly, with safety being the utmost concern. We are delighted about 24/7 overseers of the grounds. No night lights, traffic or noise from the park with the gates closing at sunset, opening on sun rise.

As a 32 year resident of Alpine I fully support the proposed park for Alpine. This community is in need of the proposed facility, especially for its youth. I am also a frequent user of Wright's Field hiking trails and strongly believe that the proposed park will not degrade the use or enjoyment of this natural habitat area. Wright's Field and this new park are compatible and will enhance each other's usefulness to the community.

As long time residents of Palo VerdeRanch our family strongly opposes the sport complex at Wright's Field. We walk and run there all the time and love the serenity and natural beauty of the only open land area we have nearby. The roads leading to the park are already dangerous for cyclists, runners and walkers and now you want to add parking for almost 300 cars! That's insane! A skate park could easily be built somewhere else. This complex would be a detriment to our town.

Alpine Park- I'm a family with little kids. I moved here for the nature and open space. In 5 years of being here I've noticed a need to create a system for the bikers, walkers, joggers, golf carts, horses, to commute with less vehicles from Alpine Blvd - Tavern Rd - and South Grade Rd. Please consider them - there are no sidewalks. Having less cars and preserving the nature we moved here for - the peace & quiet. The culture here is not like any other SD town- it's Mountain Living for SD.

The budget for construction of a new County Park in Alpine should be passed by the Board. Alpine is one of the largest communities within unincorporated San Diego County yet has no community park facilities! It's time to provide a safe area for children to play, families to congregate, special events to be held, and general community use. Please vote "aye" to support the budget for the Alpine Community Park!

I am the proud Superintendent of Alpine Union and fully support the park being planned for Alpine. The athletic fields that we have at our schools are not able to accommodate the number of requests we receive. The addition of the new park will help accommodate the needs that we have in our community and provide options for our families that our schools cannot. With only the rarest exception, families and parents that I have interacted with are overwhelmingly supportive of the proposed new park.

The park that has been proposed will be destructive to Wrights Field. Numerous parks throughout Alpine would be better suited. This massive park will be on a dangerous road. Approximately 1000 people could be trying to vacate a park during a fire, with families trying to leave. The adjacent land should be part of Wrights Field it has NEVER been approved for any growth. Dear Committee, I oppose the present proposed plan, size, and choice of location for the Alpine County Park which includes a Sports Complex and feel it is not in the best interest of tax payers or the community as a whole. It would negatively impact the natural habitat, wildlife, and beauty of the area including Wright's Field, cause traffic congestion and hazards, and add to the problems dealing with fires in a high fire danger area. I am a youth who strongly opposes this atrociously designed, massive Sports complex, but supports a small nature based park. There is a plethora of glaring issues I cannot address now. I am appalled that bbqs would be placed in a grassland- local residents cannot have insurance due to the high fire hazard area. Besides disregarding our smalltown needs and our natural environment, you put the lives of nearby residents and park users (who will mainly access on foot via a busy road) at risk.

Not only does it help teens have a place to go and build skills and friendships, but there are many benefits to bicycle riding from a child development standpoint for young children to build skills, balance, focus, confidence, and the ability to challenge themselves that may not do well or have an interest in team sports. With the obesity rate, ADD, Autism, and ADHD, there needs to be more outlets that expose kids to do different things from a motion standpoint for brain balance and development.

Alpiners are losing their homeowner insurances due to real and present fire danger. Adding 275+ parking spots to

the Alpine Park will overload and clog the ONLY already-stressed 2-lane road to evacuate safely for the neighboring 500+ homes and livestock. Offensive to see BBQs and fire pits as part of the design. Who wants to use a park that sits next to flammable grasslands as an "alternative evacuation location"? Oppose 25/acre sports complex, not orig.12-15-acre community park concept. It's TOO BIG—300 pkg spaces—South Grade=2-lane country road w/o upgrade—no sidewalks, turn lanes=deadly—accidents,deaths-w/o room to widen

W/ environmental & fiscal impact on surrounding nature/land, far fr town center, lack of safe pedestrian/bike access, dangerous automobile access on SGr Rd, traffic, noise/light pollution, safety/security, maintenance etc. Better places to build, restore Alpine sports & rec facilities.

This is oversized and over developed for the community. This is a large sport complex that will bring high traffic from neighboring cities. Alpine needs a 1/4 of this concept. Good maintained trails for walking, biking, and horses. A paved path for wheel chairs, jogging, or bike riding for little kids. A nice play ground with a few tables and about 20 parking spaces max. It an open beautiful area. Make the trails more usable though maintenance.

Alpine already has a legendary mtb status with the surrounding trails, the sport needs more local acknowledgement so it can keep growing. Alpine does not have enough park space (as stated in the San Diego Foundation's 2020 Parks for Everyone Report) to serve it's current community and with the planned growth this deficit will only increase. Our family has hoped for a comprehensive park for our community since 1996. The Alpine park plan is exactly what we have wished for. The design is highly sensitive to the environment and provides safe access for our entire community. The services offered address the many and varied needs of the residents of Alpine. The parks host will provide security and safety for park users.

Our family strongly supports the park and encourages the Board to fully support it as well. It's about time!

We know now more than ever bc of pandemic, access to open/green space is vital to our physical/mental health. Literature supports that access to open space has higher value than parks with amenities, especially if the amenities are not maintained. Access to quality parks is an equity issue. As a community we must focus on environmental justice/equity. We need to build a park where it is needed/desired by a community. This is the wrong park at the wrong location. Don't fund the Alpine Local Park.

I request that the BOS does not approve the money for the Alpine Local Park included in the budget. I am unhappy that DPR proposed a 26-acre ACTIVE park to “meet their matrix” while disregarding what the community has wanted for decades. This size of a park would increase traffic, noise, and safety that would directly impact our family and the community at large changing the landscape that many of us were drawn to Alpine. The matrix should never be applied to a rural community. Dont fund!

Community members, conservationists and potential park visitors need to be informed of specific park plans such as: adequate Fire protection, adequate water availability and use, and the emphasis on native habitat as opposed to developed acreage that eliminates biodiversity. This seems like there are still too many things to work out to have the city bulldoze (literally) this through. We are in a drought water & installing grass & leafy shade trees in a dry hot area requiring water is irresponsible.

No solar & paving over so much is Shortsighted.

It's a bait/ switch to create a sports park best left at school grounds.

It must be designed better & more harmonious to natural habitat and the preserve with native & drought tolerant plants.

There is no traffic infrastructure in place. This is a narrow, winding road with no pedestrian safety in place. Numerous accidents happen here. Traffic congestion on a 1 lane road will be ridiculous. Where is the water coming from to irrigate these fields and non-native landscape items? No mention of damage to Wrights Field ecosystem from hugely increased walkers, runners, dog (excrement) and horses (erosion from footpaths and then also excrement). Who's paying to remediate this damage?

Alpine is already one big nature park with a rural/small town vibe, hence people (my family included) move here for the quiet views away from the "city." While there is indeed a need for a smaller park for restroom facilities and a dog park and/or playground, this could easily be placed near the Albertsons or Willows exit. It leaves a bad taste that the city of San Diego would even consider taking acreage from the one natural preserve that Alpine residents both utilize and admire.

I am not in support of a sports complex that was originally proposed as a park. Sounds like typical county shenanigans to me and not something the RURAL town of Alpine wants. Not only is the location directly next to a nature preserve but the road in and out doesn't support the amount of traffic it may generate. People live in Alpine to get away from this type of development, we don't want a destination park especially one that will affect many homes and puts Wrights Field at risk.

Section 3.2 of the Alpine Community Plan says we should encourage less traffic on South Grade Rd. How will a "Destination Park" in a small rural community do that? The BCLT has been a great steward of Wright's Field and is loved by the community. Maintaining the integrity of the Wright's Field native ecosystems should be top priority. We don't need more concrete in our world but we do need the peace and tranquility of the natural world. Clanging skateboards & traffic don't accomplish that.

The proposed county park on the southeast portion of Wrights field is a grandiose plan on the most dangerous curve of South Grade road. Wrights Field is really the safest place for most Alpine residents to hike and walk and enjoy nature and I don't want that to change if a park is built - especially since Alpine hasn't enough safe sidewalks for people to use. Please do not build this park!

As a San Diego resident of 18 years I have visited Alpine and Wright's Field many times. I am opposed to the sports complex proposed. Wright's Field preserves precious pieces of our multi-cultural history. It serves not only as a safe place to explore our native habitats and its occupants, it represents our capability to preserve the wild in the middle of population growth and development. And the intent behind the creation of this preserve was to keep it for generations to come. Thank you.

I urge the board to remove funding for the Alpine park. Parks and Recreation has been dishonest in the process of developing the park's plan by failing to listen to public input and disregarding survey data. The survey data clearly show Alpiners want a small, nature-based park and not a sports complex. The bottom line is that Parks and Rec has used the park to check boxes for their own criteria and it has been at the cost of the community's trust and the habitat where the park will be built.

I oppose the current plans for the Alpine Local Park. Originally, after the county purchased 98 acres adjacent to Wright's Field, county P&R said only 10-15 acres would be developed into a passive use park. Now, they want to build a 26+ acre mega sports complex. The majority of Alpine does not want this. It will ruin our pristine, rural community via increased traffic, noise, and permanent damage to our prized ecosystem. Please reconsider a passive use park that will better serve Alpine.

As a longtime resident of Alpine, I see the need for a community park. I have long supported a county park in Alpine, but am disappointed with the park that is being planned. Having a park next to a nature preserve puts the flora and fauna of Wright's Field at risk of destruction and extinction. Also, the planned sports complex simply does not make sense in an area consistently plagued by drought. How will the multiple fields proposed stay watered and green? Who will pay for maintenance?

I oppose the proposed Alpine County Park. I think that the move to create an urban style park in a rural community is out of touch with the desires of the people and does not align with the County's goals for climate change and environmental justice. By putting this park here, and likely charging for parking, you will be limiting our exposure to nature rather than encouraging it. This park does not serve, nor is accessible to, the people who live in the high density parts of Alpine.

One item on the budget I'm particularly interested in is the Trail Improvements in Los Penasquitos Canyon Preserve. Evidently, there is a proposal for an investment of \$715,000 for this. I believe that this area is one of the most unique and special places in the entire county that offers a great location to hike, bike, even enjoy cascades! I think \$715,000 is a huge bargain for what would be provided: an improvement on an already wonderful area that should be treasured and nurtured.

I am against the proposed active Park in Alpine. I do not think the Parks Department adequately surveyed Alpine residence for their input on what the community wanted in a community park. Additional concerns are; the amount of water that will be needed to sustain the landscape. South Grade Road is dangerous. There have been several people killed on the road. The Edelman Oaks need to be protected. Developing a graveled parking lot will stress and kill the trees. Take a step back and rethink!

The 4s Ranch library is very small, but has the 7th largest circulation in the entire county! We need an expansion and the follow-up funds to maintain this valuable public service. Kelley Gusich

I support additional continued funding for the 4S Ranch Library expansion! 4SR branch has highest circulation/square foot of any County library, It serves a huge area, including 4S Ranch, Del Sur and RPQ which has grown with additional residential development Yet continues to serve more people each year. Expansion allows for events and educational programming that won't fit in the existing space. Please join me to create an even better library for our community, for our children, for our readers

This 4S Ranch library has been our library since my kids were born. Because of this library and the people who work there and their passion to help their community, my children, now ages 10 and 12 LOVE to read. We have attended countless programs from their toddler reading program to their cultural events to their reading programs for tweens and have loved every moment. As our neighborhood has grown over the past 15 years, this library has been stretched and now needs more room in order to serve

i am opposed to the size and scope of the Alpine County Park. Your agenda lists this as the Alpine LOCAL Park. That was what was originally proposed--a 10-15 acre passive park in keeping with the surrounding area and the community of Alpine. It has morphed into an active 26 acre destination park. The active amenities should be located closer to town. The proposed park cannot be safely accessed by bikes, skateboards, or walking. The County's own surveys show most prefer a passive park, as do I.

The 4S Ranch Library has provided a wonderful place for our kids to read, do research as well attend

extracurricular activities including art and chess. Often the library is very full and an expansion of any kind would provide even more opportunities for the 4S Ranch Library to provide more classes for more kids in the future. The space is an integral and central component of raising our children, taking them to events and opportunities to learn and grow. Thank you!

I strongly support funding for the 4S Ranch Library expansion. Before the pandemic, it was always very crowded in both the children's area and the community room. Events were restricted due to the small space, and often times were moved outside onto the street or parking lot (which poses a safety concern for young children). There are a lot of families with children in this area, so an expansion to the building will be much appreciated and will surely be well utilized.

I strongly support additional funding for the expansion of the 4S Ranch Library. The community has grown significantly and the circulation far outpaces the square footage. It's an extremely tight fit - especially during after-school hours and it lacks space for many of the events that bring a neighborhood together. Please consider this when voting on the additional funding.

I'm a resident of District 1 living in Chula Vista. Please encourage building electrification for new construction and microgrid infrastructure for cooling centers and government buildings. Funding incentives are required to remove gas stoves that pollute our homes and replacement with induction or electric stoves. More energy efficient appliance incentives for heat pump water heaters would help to achieve our climate goals.
